Department of Chemical Engineering
Term Adjunct Position
Winter 2022 Term

Posting Date:  October 20, 2021
Closing Date:  November 12, 2021

The Department of Chemical Engineering at Queen’s University requests applications from suitably qualified candidates (as outlined in PSAC 901 Collective Agreement, Article 12.08) interested in teaching the following undergraduate course in the Winter 2022 Term.

**APSC 131 (Chemistry and Materials) Extended Program**
(Five-week course between January 1, 2022 until February 28, 2022)
**APSC 132 (Chemistry and its Applications) Extended Program**
(Twelve-week course between February 1, 2022 until June 30, 2022)

Course Description
**APSC 131 Extended Program – Chemistry and Materials**
This remedial course is five weeks in length and is a review of the APSC 131 course taught in the fall term. It summarizes the main topics taught in APSC 131 enabling a smooth transition into APSC 132J. Topics reviewed include: an introduction to the fundamentals of chemistry; thermochemistry; gas laws in ideal and non-ideal systems; phase equilibria in one component systems; concepts of bonding in the classification of materials and crystal structures.

**APSC 132 Extended Program – Chemistry and its Applications**
This full course lasting for 12 weeks, starting in February and ending in June, combines fundamentals of chemistry with the engineering issues associated with them. Areas of study are entropy and the second law of thermodynamics, thermodynamics, chemical equilibrium, electrochemistry, chemical kinetics, and organic chemistry. Environmental issues associated with each of these topics will be incorporated into lectures when appropriate.

**Qualifications:**
Minimum of B.Sc. or B.A.Sc. in Chemical Engineering or a related field. Applicants with previous teaching experience with demonstrated student mentoring at the University level will be preferred. Candidates must have excellent communication, organizational, and time management skills.

The course will be taught on campus.
The University invites applications from all qualified individuals. Queen’s University is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal people, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadians and permanent residents of Canada will be given priority. Academic staff at Queen’s University are governed by a collective agreement between QUFA, www.qufa.ca and Queen’s University.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation during the interview process, please contact April Hiles, april.hiles@queensu.ca, Administrative Assistant, Chemical Engineering.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens/permanent residents of Canada. Applicants need not identify their country of origin or citizenship; however, all applications must include one of the following statements: I am a Canadian citizen/permanent resident of Canada; OR, I am not a Canadian citizen/permanent resident of Canada. Applications that do not include this information will be deemed incomplete.

Applications should include a complete and current curriculum vitae, a statement of teaching experience, the names and contact details of two referees, and any other relevant materials the candidate wishes to include for consideration. Applications can be submitted to the Term Adjunct Appointments Committee by e-mailing April Hiles at april.hiles@queensu.ca. Applications should be submitted by midnight in Kingston on November 12, 2021.
