

# onQ

## Fall/Winter 2020-21

---

The course onQ website will serve as the main source of course information and will be used for submission of all document-based deliverables and for receiving feedback and grades from Project Supervisors and the Course Coordinator.

Select “*Content*” from the Navbar to access nearly all course information.

The left-hand sidebar menu on the “*Content*” page provides access to various categories of course information, as well as a term schedule with submission links for uploading deliverables.

Note:

- If one of your Supervisors makes a special request that you submit something directly to them via email or as a hard copy, you may do so, but you must also upload the same version of the document to the course onQ website if you wish to receive a grade for it.
- The course onQ website will be opened to students on Sept. 1 and will be closed on May 1.
- If you are not able to access the course onQ website by Sept. 2, it most likely means that you are not currently registered in the course. You should register in the course ASAP, if eligible.
