

Announcements - Winter 2021

Course Registration & Timetable Conflicts

Students must be registered in this course before the start of week 1 of term.

The Course Instructor (D. Poirier) is willing to sign a Course Registration Request Form to allow a scheduling conflict with one of the two timeslots for CHEE 420 (note however, you will also need to get the form signed by the instructor of the other conflicting course).

Further information and procedures for registering in courses with timetable conflicts is provided in the registration guide on the Faculty of Engineering and Applied Science website:

<http://engineering.queensu.ca/Current-Students/Registration-Guide.html>

The timing of lab work is flexible in CHEE 420. If you are not able to perform lab work during the timeslots allotted for CHEE 420, you may, with the permission of one of the Lab Technologists (and with the agreement of your teammates) perform the lab work with your lab mates some other time during normal Departmental Work Hours (8:30am - 5:30pm, Mon-Fri).

D. Poirier
