Myth busting 101:
On Being Relevant and Effective as an
Early Career Researcher
Dr. Steven Cooke/Carleton University
Thursday, October 10, 2019, 2:30pm
Dupuis Hall, Room 215

ABSTRACT

Pulling upon diverse examples from his own successes and failures, Cooke dispels common myths held by early career (and established!) researchers with a goal of helping them be more relevant and effective. Topics explored include boundary crossing, #scicomm, decision-making, advocacy, peer review, productivity, and more.
