

**Putting Inclusive Culture at the Heart of Innovation,
Sustainability and Digital –
DuPont and the Kingston Technology Centre**
Dr. George Jacob/Dupont
Thursday, February 23, 2023, 2:30pm
Dupuis Hall, Room 215

Innovation focused on important and valuable market-back challenges, a sustainability lens that significantly broadens value creation options, and a strategy enabled by digital allows DuPont to fulfill its purpose to empower the world with essential innovations to thrive. This talk summarizes the significant advances made by DuPont and the Kingston Technology Centre (KTC) in innovation, sustainability and digital while putting inclusive culture at the heart of this trifecta for a thriving and more sustainable future. Key capabilities and aspects that ensures success of KTC, DuPont's Center of Excellence in Process Development and Scale-up, will also be described.
